

Linked Learning 101 is the first in a series of opportunities for new districts and staff to learn about Linked Learning and begin to consider how Linked Learning can support educational equity and local priorities related to pathways, CTE, and college and career readiness in virtual, hybrid, and in-person educational settings.

Linked Learning 101 focuses on two key questions:

1. How might we develop and innovate equity-focused pathways in your particular context?
2. How might Linked Learning support greater equity and systems change in your context?

Who should attend: Districts and schools new to Linked Learning and new staff and leaders in existing Linked Learning districts.

AGENDA AT-A-GLANCE

Each session will run approximately three hours.

DAY 1: MONDAY SEPTEMBER 28, 1:00-4:00 PT

Linked Learning—the Why, the What, and the How

Focus: Linked Learning Practice and the Student Experience

1. Opening and Welcome
2. The “Why”—the Linked Learning Student Experience
3. The “What”—Linked Learning Equity and Practice
4. Linked Learning Standards, Research, and Certification
5. The “How”—Linked Learning Self-Study Tool and Resources
6. Planning, Reflection, and Appreciations

DAY 2: THURSDAY OCTOBER 8, 1:00-4:00 PT

Linked Learning Journeys: Greater Equity and System Change Based on Local Contexts

Focus: Systems and Conditions in Pathways, Schools, and Districts

1. Opening and Connecting
2. Linked Learning District Journeys—Getting Started, Lessons Learned, and What Might be Possible Now
3. Facilitated Planning with Support from District Leaders and Linked Learning Alliance Team
4. Resources to Planning
5. Reflections, Appreciations, Next Steps, and Closing

This two-day session may be followed by 1–2 virtual site visits to a Linked Learning school and district in late October/November. Other shared learning and networking opportunities may include a second series in the winter/spring, webinars, and participation in a collaborative network focused on pathway development for educators and administrators who are newer to the Linked Learning movement. Learn more and stay informed at LinkedLearning.org.
