

Work-Based Learning Amid COVID-19 Resources

[American Institute of Research Work-Based Learning Measures Series](#)

Research-based tools and examples for specific work-based learning (WBL) components. Includes five modules that help select assessments in WBL: Selecting Appropriate Measures, Developing Portfolios, Designing Rubrics, Constructing Employer Feedback and Evaluation, and Creating Student Self Assessments.

[US Department of Education Work-Based Learning Toolkit](#)

A comprehensive set of resources that include a WBL Framework organized in three categories: (1) Alignment of classroom and workplace learning, (2) Application of academic, technical, and employability skills in a work setting, and (3) Support from classroom or workplace mentors.

[Career One-Stop Competency Model Clearinghouse](#)

The Competency Model Clearinghouse (CMC) is sponsored by the U.S. Department of Labor, Employment and Training Administration (ETA). The goal of the Clearinghouse is to inform the public workforce system about the value, development, and uses of competency models. The industry models can be used to support developing Workplace Readiness Certificate programs.

[Taking Business to School Case Study Series](#)

Each installment in this series presents a detailed summary of a partnership between a business ([UPS](#), [Siemens](#), [PG&E](#), [Toyota T-TEN](#)) and an educational institution that has given students the opportunity to enter WBL programs and gain experience that allows them to begin well-paying, engaging careers.

[Tennessee Department of Education Work-Based Learning Toolbox](#)

A robust tool kit full of WBL resources. They have provided examples/templates for all aspects of WBL including key roles and responsibilities at the district and site level, a developed WBL continuum with specific strategies, a calendar for WBL milestones in a school year, and much more.
